

Updates

Changelogs available on [SVN](#).

- ▶ egamma cp packages
- ▶ Electron Likelihood PID
- ▶ MCP updates
- ▶ mc12b pileupreweighting
- ▶ SMT fix
- ▶ Updated b-tagging calibration
- ▶ New WW MT shape syst
- ▶ Trigger SF update
- ▶ L2StarB trigger in data
- ▶ Jet-corrected trackmet bug fixes
- ▶ MET update: muon energy loss and lepton-jet overlap removal, and partial simplification of calculation
- ▶ Various other fixes

Several HWWNtupleCode functions have had their arguments changed and CorrectMet is no longer needed with the new MET 'recalculation' function. Let us know if you're confused about a change.
