Dear Professor McKee and committee members,

I am applying for a junior faculty position in the physics department at the University of California at Berkeley in the area of high energy experimental physics. Enclosed you will find my curriculum vitae and a statement of research interest. I have arranged for five letters of recommendation to be sent to you. At least two of them should have already arrived, from Nigel Lockyer and Young-Kee Kim. If you have any questions, or need further information, please contact me.

Thank you,

Aaron Dominguez
